Skills

- JavaScript
- Typescript
- Python
- Solidity
- HTML5
- CSS3
- ReactJS
- NextJS
- Angular
- Vue3
- NodeJS
- Database
- Project Management

Hobbies

- Cybersecurity
- Reading

Languages

- English

Profile

As a highly skilled and dedicated Front-end Developer, I bring a wealth of experience spanning 5 years in crafting user-centric web applications. My expertise lies in leveraging modern JavaScript frameworks such as React and Angular, underpinned by a solid foundation in HTML5, CSS3, and responsive design principles. I excel at transforming design wireframes into pristine code, optimizing web performance, and elevating the user experience. My meticulous attention to detail and fervor for staying abreast of the latest industry trends and technologies are the cornerstones of my professional ethos. I have a proven track record of collaborating seamlessly with cross-functional teams to deliver innovative solutions and meet project objectives with finesse.

Professional Experience

Front-end Developer, C-Sunshine, Bratislava, Slovakia

NOVEMBER 2023 – PRESENT

- Boosted revenue and slashed development expenses by 20% through the deployment of a dynamic, real-time medical check-up chart.
- Enhanced user engagement and feedback by 15% by integrating a robust survey feature.
- Leveraged Test Driven Development to optimize web pages for peak performance and scalability.

Projects

- Body Fast (bodyfast.app): Contributed to the Body Fast fitness web application by refining the authentication and onboarding experience.

Lead Front-end Developer, Nanocodes Programming

JANUARY 2023 – FEBRUARY 2024

- Spearheaded a skilled development team in crafting scalable software solutions, leveraging top-tier project management methodologies to align with industry benchmarks.
- Drove a 25% surge in customer engagement by leading the creation of an intuitive customer service platform.
- Catalyzed a 14% uplift in revenue through the strategic development of a robust, industry-standard e-commerce website.

Projects

- Andromedia (andromedia.cc): Engineered the front-end architecture of a live chat application, delivering a user experience on par with market leaders like Tidio Chat.
- Ms Network (msnetwork.com.ng): Contributed front-end expertise to the development of a critical network application for the Nigerian Army 82 Division, enhancing operational efficiency

Front-end Developer, Dream Hunters DAO, Naples, Italy
OCTOBER 2022 – JANUARY 2023

- Engineered robust RESTful APIs enhancing front-end to back-end system interoperability.
- Fostered collaborative development with product managers, designers, and engineers to deliver cutting-edge web3 NFT platforms.
- Elevated application efficiency through meticulous code reviews and optimization strategies, mitigating performance bottlenecks.

Full Stack Engineer, Global Network LLC, Avondale
AUGUST 2021 – OCTOBER 2022

- Enhanced payment efficiency and slashed costs by 35% via the development of an Ethereum-based smart contract system.
- Boosted user engagement by 15% by deploying personalized, real-time email and push notification strategies.
- Elevated user experience and engagement by 20% with the integration of an Elasticsearch functionality.

Projects

- Whatido (whatido.app): Led the development of a cutting-edge social media application, incorporating video reels, an explore page, and seamless crypto and Stripe payments, complemented by live messaging features.

Education

Computer Science and Mathematics, University of Nigeria
DECEMBER 2017 – JULY 2021

Detailed Skills

- **Programming Languages**: JavaScript, Typescript, Python, Solidity, HTML5, CSS3
- **Frameworks**: ReactJS, NextJS, Angular, Vue3, NodeJS, ExpressJS, NestJS, Tailwind CSS, Styled Components, Redux, Context API
- **APIS**: REST APIs
- **Cloud**: Google Cloud, Mapbox, Stripe
- **Tools**: WebRTC, Socket.io, Git, GitHub, Postman, Twilio, Firebase, JWT, Webpack, Babel, CRA, Vite, Docker, React Hooks, Ethers, Hardhat, Jira, Asana, Trello
- **Paradigms**: REST API Architecture, Agile Software Development, Microservices, CICD
- **Database**: PostgreSQL, MySQL, MongoDB, Firestore, JSON
- **Hosting**: Vercel, Netlify, Namecheap
- **Soft Skills**: Communication, Scheduling, Flexibility, Leadership, Management
